Jeremy,
Our NVRA notices went out too late to inactivate these votes outside of the 90 requirement mandated by NRS. We were forced to put these voters back on the rolls, it was our mistake. This file will be looked at after the general election, those who vote will be removed from the listing and the remainder will be inactivated after the election.

Hey,

Can you please provide an explanation as to why the numbers have reverted back to the numbers from two days ago before you removed those active voters who's ballots bounced back in the primary?

Thanks,
Jeremy
